

Your leads deserve a faster reply than you can give.

Warm Follow is the AI agent that texts, calls, and follows up with every motivated seller and every active buyer — inbound and outbound — until they book. One investor used it to close six figures in wholesale assignments while his phone stayed silent.

● A QUICK HELLO

Why Warm Follow exists.

Whether you're an investor working motivated sellers or an agent working buyers and listings, deals are not lost in the pitch — they're lost in the follow-up. Hot leads go cold while you're in a contract. Sellers slip to whoever calls them first. Manual follow-up doesn't scale past one person.

Warm Follow closes that gap. It's an AI agent that responds to every inbound text, call and voicemail in under a minute, and runs multi-week outbound cadences for months without a human touching them. Only booked, qualified appointments land on your calendar.

This 12-page tour walks you through what Warm Follow does, the actual numbers our customers are putting up right now, and how to get it live on your CRM in under a week.

WHAT YOU'LL FIND INSIDE

1. The follow-up gap that costs investors and agents six figures a year
2. One agent. Four channels. Running 24/7.
3. A real cadence: 5 touches, 49 days, 0 human minutes — booked
4. Live customer numbers: 193+ appts, \$100K+ closed, 91% positive sentiment
5. Pricing, GHL onboarding and how to book a live demo

● THE PROBLEM

Real estate pros lose deals in the follow-up — not the pitch.

Whether you work motivated sellers, cash buyers, expireds, open-house sign-ins or your own sphere — most leads go cold because nobody reaches back fast enough. Tire-kickers eat your hours. Hot prospects slip to whoever calls them first. Manual follow-up doesn't scale past one person.

BEFORE WARM FOLLOW

Phone tag with ghosts

- Leads sit for hours while you're in a contract or on another call
- You chase tire-kickers who never had real intent
- Long follow-up sequences die after touch #2
- Speed-to-lead measured in hours, not seconds
- Aged leads sit untouched in your CRM forever

● FOR REAL ESTATE INVESTORS

Wholesalers, flippers, landlords — every lead, worked forever.

"I stopped calling leads back months ago. The AI handles every inbound and every follow-up. I spend my time writing contracts — not chasing ghosts."

— Corey Vickers, Founder · VA Home Offer (six figures in assignments closed)

● FOR REAL ESTATE AGENTS

Your sphere, your open houses, your expireds — handled.
